The 'Rules'

- **Listen actively** - Respect others when they are talking and avoid private discussions.
- The room layout requires that you put a hand up and **wait to be acknowledged** before speaking. Also **speak loudly**.
- Try to **speak from your own real experience** instead of generalizing.
- Don't be afraid to respectfully challenge one another by asking questions, but **refrain from personal attacks** - focus on ideas.
- Participate enthusiastically and to the fullest of your ability - the **inclusion of every individual voice** is important to our success.
- Instead of invalidating somebody else's story with your own spin on her or his experience, **share your own story** and experience.
- The goal is not to agree - it is to **gain a better understanding** of the issues and possible solutions.
- Use the word "**ELMO**" when you think the dialogue is going nowhere (Enough, Let's Move On)
