What Future for GIS Inventory?

GIS Inventory: What is it?
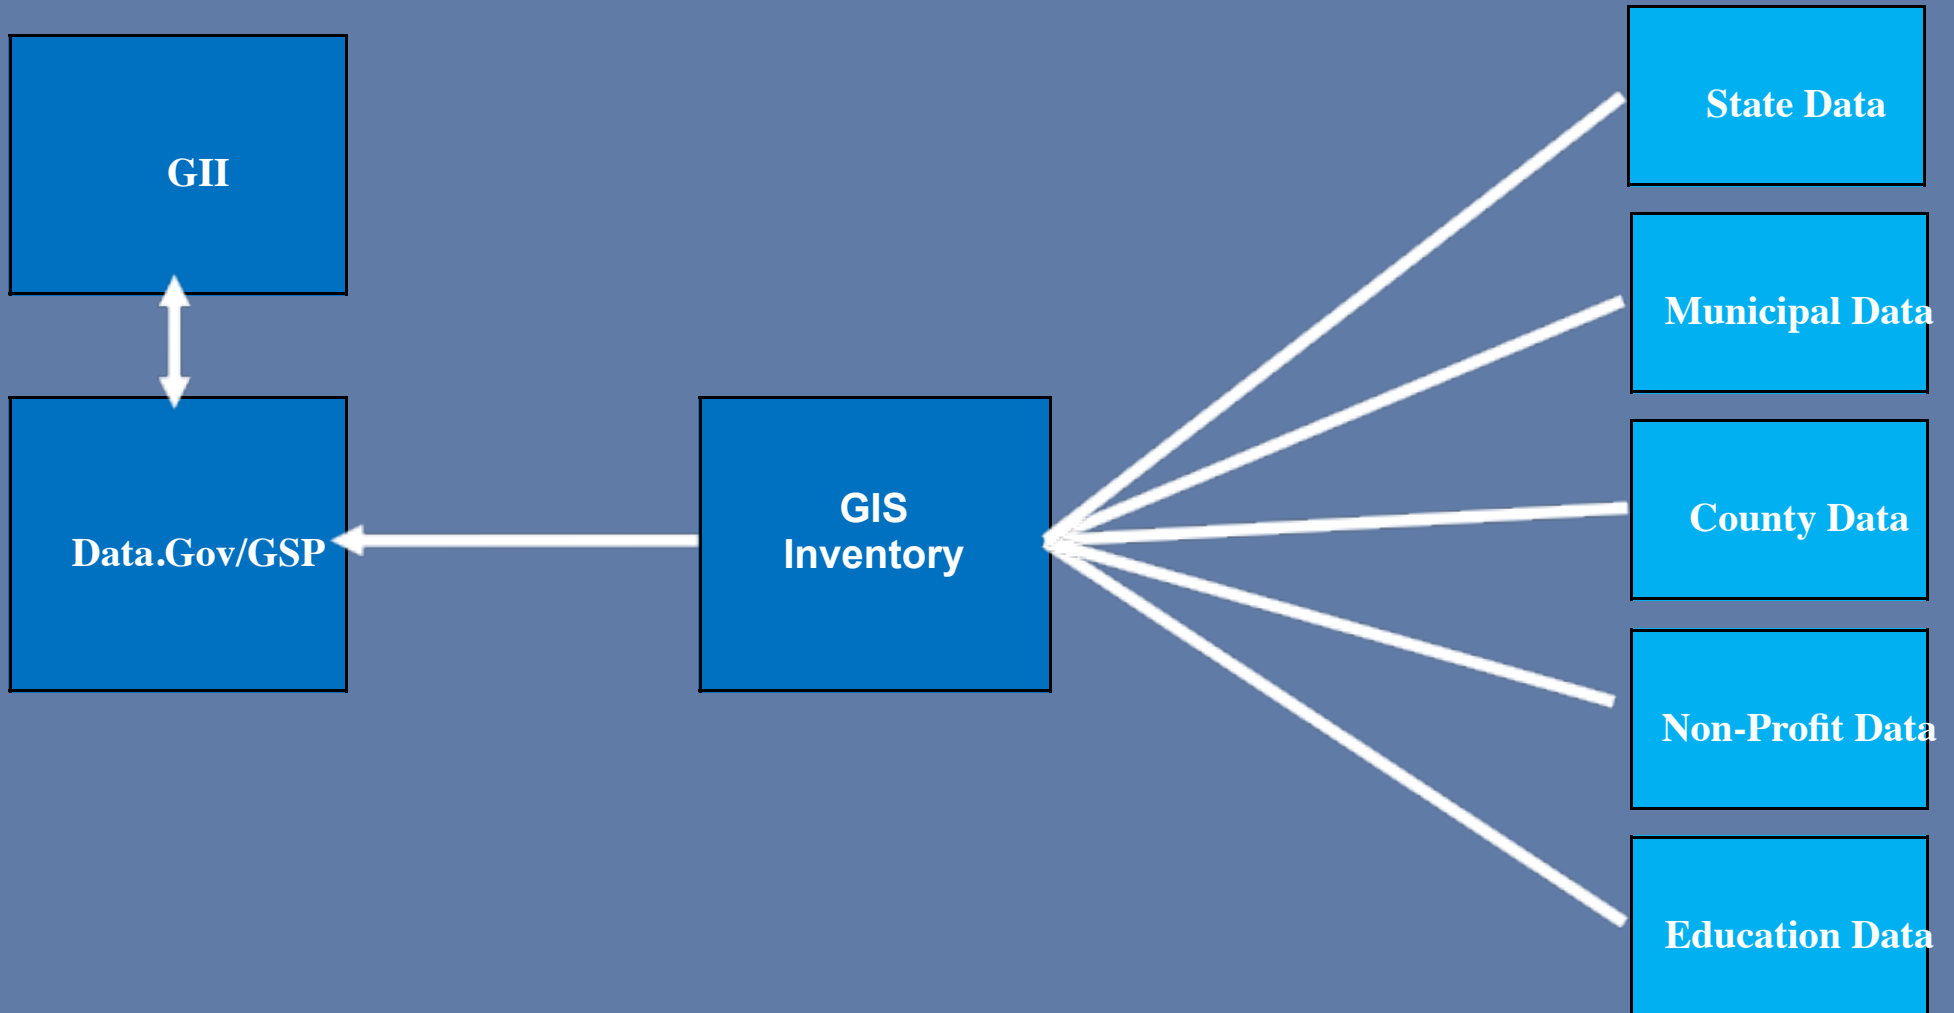

- GISInventory.net ("GISI" for short, shout out to RAMONA)
- flagship online application of NSGIC since 2004

With the GISI, you can:

1. search and discover available geospatial data,
2. track the status of GIS data development throughout state, local, regional and tribal government, and
3. find the people working near you, in your area of interest, or with certain expertise.

- 24,605 documented data sets
- 8,462 users
- Feeds Geospatial Platform, contributing 20% of overall holdings
